Dear Graduate Student,

Our K-12 educational leadership program is designed to help you reach your professional goals. As you earn your degree, we would like to ensure that you are informed regarding licensing. Successful completion of this MEd/EdS degree program at the University of Mississippi meets the educational requirements for licensure in the state of Mississippi. The Mississippi Department of Education (MDE) has additional requirements for administrative licensure. We recommend you review those requirements on the MDE website (designated below).

A determination has not been made as to whether or not the degree meets the licensing requirements of states, territories, or entities outside of Mississippi. Reciprocity of an administrative license is determined by individual states and entities.

Relocation after program admission may impact a student’s program, internship, and/or tuition costs. Please contact your program advisor if you have questions about licensing.

Sincerely,

MDE Licensure hyperlink: https://www.mdek12.org/OTL/OEL/K12
