GS5 (Authorization to Sit for a Comprehensive Examination – Ph.D. only)
GS6 (Dissertation Review Procedure & Dissertation Prospectus Procedure)
GS7 (Authorization of the Final Oral/Written Examination – M.A.)
GS7 (Authorization of the Final Oral/Written Examination – Ph.D.)
GS8 (Application for Graduate Degree)
Welcome

We are glad you have chosen one of the higher education programs at The University of Mississippi. Whether you are starting in the field in the master’s program, or looking to broaden your horizons as a professional in either the master’s or doctoral program, we wish you success in your professional journey.

This handbook was written to help you understand and plan your graduate program. Program requirements and policies are reviewed here and all students need to become familiar with them if they are to succeed in reaching their goal of attaining a higher education degree.

This handbook may not answer all your questions about our graduate programs. The Graduate Catalog, University Policy Directory, or other publications, may be referenced here and should be consulted as well when questions arise.

The Graduate Catalog contains specific information regarding admission policies, academic regulations, and requirements for degrees. Students are expected to be knowledgeable of and adhere to the policies and procedures set forth in the Graduate Catalog. Keep in mind that the Graduate Catalog establishes minimums and it is within the right of a department or program to establish policies that require more than the minimums. If there is a real or apparent conflict between this handbook and the Graduate Catalog, you should follow this handbook.

Continued Enrollment and Graduation Requirements

In addition to the policies outlined in the Graduate School catalog, continued enrollment in, and subsequent awarding of a graduate degree from, any graduate program in the Department of Higher Education, requires that a student maintain an overall B average in all graduate courses taken once admitted to the program. Upon receipt of a grade lower than a C or the receipt of a grade of C in more than one graduate level course, a student will be subject to dismissal from the program.
Higher Education Faculty

Neal H. Hutchens, J.D. (University of Alabama), Ph.D. (University of Maryland). Interim Chair and Professor
Kerry Brian Melear, Ph.D. (Florida State University). Professor
Amy E. Wells Dolan, Ph.D. (University of Kentucky). Associate Dean and Associate Professor
Brandi Hephner LaBanc, Ed.D. (Northern Illinois University). Vice Chancellor for Student Affairs and Associate Professor
George S. McClellan, Ph.D. (University of Arizona). Associate Professor
John Holleman, Ed.D. (Texas A&M University at Commerce). Director of Graduate Studies, Clinical Associate Professor and Program Coordinator
Phillis George, Ph.D. (University of Wisconsin-Madison). Assistant Professor
Whitney Webb, Ph.D. (The University of Mississippi). Assistant Dean and Assistant Professor
Student Expectations

**Work Ethic.** The faculty expects all students to make a primary commitment to graduate training. This may mean reorganization of one's priorities and substantial self-sacrifice. Each semester, students should be prepared to dedicate 10 or more hours/week outside of class time for each course taken. Time should be reserved to review successfully completed courses from previous semesters in order that a knowledge base can be constructed, expanded, and remembered. Master’s students will be asked to maintain a portfolio, a program-long project where documentation of professional growth is kept.

**Professional Involvement.** Knowledge of and participation within professional organizations plays an important role in your training. Our expectation is that you, at the very least, will join the Ole Miss Student Personnel Association (SPA). In addition, joining the National Association of Student Personnel Administrators (NASPA) and/or Association of College Personnel Administrators (ACPA) also will enhance your educational and professional experience. You also may want to consider joining a more specialized professional organization as you narrow your career focus.

**Forms of Expression.** These are programs that prepare human service professionals; therefore, students are expected to use correct and effective forms of oral and written communication. Additionally, all papers and projects submitted to the faculty, unless otherwise stated, should follow the form and style documented in the latest edition of the *Publication Manual of the American Psychological Association*. Finally, as a great deal of a higher education/student personnel professional’s responsibility is verbal in nature, the ability to speak effectively also is very important.

**Ethical Standards.** Ethical standards are best illustrated by The University of Mississippi Creed. Abiding by the principals expressed in this creed will provide a very good ethical foundation for a course of study in higher education. Our students are expected to know and understand this creed.

*The University of Mississippi is a community of learning dedicated to nurturing excellence in intellectual inquiry and personal character in an open and diverse environment. As a voluntary member of this community:*  

- I believe in respect for the dignity of each person
- I believe in fairness and civility
- I believe in personal and professional integrity
- I believe in academic honesty
- I believe in academic freedom
- I believe in good stewardship of our resources

*I pledge to uphold these values and encourage others to follow my example.*

**Providing information.** The University provides a database for students though the Campus Management system. It is the student's responsibility to keep this information current and accurate. It also is important for us to know about significant changes in your academic and work activities, as well as information that may possibly interfere with your studies.
Emerging Professional Statement

The Higher Education programs at The University of Mississippi embrace a standard of professionalism in comportment and communication commensurate with sound principles of ethical, just, and effective professional practice.

Dispositions are guided by beliefs and attitudes related to values such as caring, fairness, honesty, responsibility, and social justice. The role of an emerging professional is grounded in the demonstration of the appropriate dispositions related to the field of higher education/student personnel.

As an emerging professional in the field of higher education/student personnel, I will:

• Display professionalism through punctuality, appearance, attendance, and dependability.
• Exhibit poise, maturity, and sound judgment.
• Participate in activities related to professional organizations including, but not limited to, joining and supporting SPA; joining and supporting at least one national organization related to the field (e.g., NASPA, ACPA); attending at least one regional or national conference; and presenting a paper, poster, or other item at a state, regional, or national conference related to the field during my program.
• Honor all duties and obligations related to employment, assistantship, practicum, or other work-type situation related to the field.
• Respect and acknowledge all lawful and university-related authority by refraining from activities that are unlawful, dishonest, fraudulent, deceitful, or not in line with program, department, or University policies.
• Represent the profession by executing responsibilities with fairness and impartiality, and show equal consideration of all individuals regardless of status or position, respecting individuality and promoting an appreciation of human diversity in higher education.
• Demonstrate and promote responsible behavior and support actions that enhance personal growth and development of students.
• Ensure that all information conveyed to others is accurate and in appropriate context, and take responsibility for all pertinent ethical principles and institutional requirements when planning any research activity dealing with human subjects.
• Foster a climate of collegiality and mutual respect and promote a sense of community among all areas of the campus by working cooperatively with students, faculty, and staff, and other constituencies inside and outside of the institution to address common goals of student learning and development.
• Maintain confidentiality, where appropriate, and high ethical standards.
Master of Arts Degree in Higher Education/Student Personnel

The M.A. in Higher Education/Student Personnel provides professional preparation for persons who are or will be employed in the administration of student affairs, student life, student services, or other co-curricular positions at a higher education (postsecondary) institution.

Program of Study (42 hours)

Foundations Area – 6 hours
EDFD 609 Cultural Context of Education (recommend take sometime after 1st fall semester)
EDRS 605 Educational Research I

Higher Education Core – 24 hours (27 hours if EDHE 668 required in core)
EDHE 656 Student Services in Higher Education (take during first semester available)
EDHE 658 Organization and Governance in Higher Education
EDHE 659 Finance of Higher Education
EDHE 660 History of Higher Education
EDHE 664 Law and Higher Education
EDHE 665 Contemporary Issues of Higher Education
EDHE 667 Practicum in Student Personnel Services
EDHE 668 Practicum in Student Personnel Services
EDHE 668 may be waived if one works at least 20 hours per week in a higher education position or holds a higher education related graduate assistantship.
EDHE 671 The College and the Student

Higher Education Electives – 12 hours (9 hours if EDHE 668 required in core)
If EDHE 668 is required in core, take three of the following; if EDHE 668 is waived, take four of the following:
EDLD 630 Organization-Environment Interaction
EDHE 651 Advanced Individualized Study (advisor approval required)
EDHE 657 Comparative Higher Education
EDHE 661 The Community College
EDHE 662 College Teaching
EDHE 663 Curriculum in Higher Education
EDHE 668 Practicum in Student Personnel Services (only if waived as a requirement in core)
EDHE 669 Human Resources in Higher Education
EDHE 670 Special Topics in Higher Education
COUN 570 Multicultural Issues in Counseling
COUN 680 Career Counseling
EDRS 501 Educational Statistics I
Other courses may be taken as electives with advisor approval.
Standards and Program Information

This Master of Arts degree program in Higher Education/Student Personnel is designed to prepare qualified students for entry level positions in higher education and/or student personnel. Graduates have found employment as higher education professionals in a variety of areas, including housing, career counseling, international student affairs, financial aid, student activities, Greek life, and development, just to name a few. The program is located in the National Council for Accreditation of Teacher Education (NCATE) accredited School of Education and follows the standards outlined by the Council for the Advancement of Standards in Higher Education (CAS). Every four to five years, the program faculty conduct a self-study of the program to assess its alignment with the CAS standards. This maintains a relevant and current program for our students.

As indicated by the variety of areas in which graduates of this program have found positions, the program is based on a broad foundation that introduces students to both general aspects of higher education and student personnel, but also more specific areas that will affect every professional, regardless of in which areas students may find themselves employed.

Program Planning and Registration for Classes

Each student is assigned a faculty advisor at the time of admission. With the help of an advisor, a program plan should be completed by each student prior to or during the first registration period. The typical course rotation by semester may be found in the Appendices.

Students are required to meet with their advisors at least once each semester. This usually takes place during the registration or pre-assignment periods as noted in the University calendar. Under no conditions should a student register for classes without advisor approval. Meetings with an advisor can be a time to discuss progress and make plans that help ensure success within the program of study.

Registration for classes is accomplished completely through the University’s web-based interface (myOleMiss). Each student is given a priority window of when to register on-line. If you face problems with registering, please contact Information Technology for technical problems (662-915-5222 or helpdesk@olemiss.edu). If your problem relates to a class closing, please contact the instructor first if requesting a space in the course. When communicating with the program coordinator, or a faculty/staff member regarding course registration, always include your University ID number.

Students also are responsible for noting prerequisites for courses, and planning their programs to account for proper sequencing of all course work. Refer to program checklists and the Graduate Catalog for pertinent information.
Student Evaluation and Sequencing of Courses

Upon notification of admission, each student should contact his or her advisor and indicate when study will commence. During the first registration period or shortly thereafter, the student and advisor will plan a program of study. This will result in an advising sheet for the student’s folder, indicating when courses are to be taken. The form should be completed before the end of the first semester of enrollment.

Per CAS standards, each student is required to have two practicum experiences, which are addressed in more detail below. One practicum may be waived if a person works at least 20 hours per week in a higher education related position or holds a higher education related graduate assistantship. Taking EDHE 656 (Student Services in Higher Education) is a prerequisite to participating in a practicum experience and we encourage students, especially those without relevant work experience or assistantship, to complete the first practicum experience early in the program. This will provide additional experience to assist in bridging the gap between theory and practice.

Each semester, during the registration period, the student should report grades for the previous semester to his or her advisor, and receive advising for the coming semester. This is especially important for students admitted with conditional or qualifying status. Pre-assignment is strongly advised.

Each student is required to complete and submit a portfolio during his or her last semester of enrollment. Portfolio requirements and guidelines for constructing and maintaining portfolios are described elsewhere in this document as well as on the program website.

The Practicum

As indicated above, students in the master’s degree program are required to complete two practicum experiences, although one practicum may be waived if a student works at least 20 hours per week in a higher education related position or holds a higher education related graduate assistantship. Students should enroll in EDHE 667 for their first practicum and for EDHE 668 for the second practicum (whether as a requirement or elective).

Each practicum experience consists of 150 clock hours of supervised practice completed during one semester. Students spend time on-site performing activities that are supervised by qualified professionals. If you meet the work or assistantship requirements under which one practicum may be waived, your practicum experience may not take place in the area of your work or assistantship. If you do not meet the waiver requirement, each practicum experience must be in a different area. Some practicum experiences, such as those that involving teaching, may have additional prerequisites beyond taking the EDHE 656 course. Students should plan to meet with Dr. Brandi Hephner LaBanc, who serves as the program’s Practicum Director, to discuss practicum goals and plans.
Portfolio Guide

Purpose

Portfolios are not intended to be a random compilation of every paper or project the student completed during his or her tenure in the program. Rather, a portfolio should consist of a meaningful reflection of the program with appropriate, but limited, support through examples. Therefore, the purpose of the portfolio is to enable students to conduct a critical self-study of their learning while enrolled in the Master of Arts program in Higher Education/Student Personnel. An additional purpose is to assist faculty in their evaluation of each student’s progress.

Elements of a Portfolio

The portfolio has four main components. These components are designed to provide the student with a framework on which to build his or her portfolio.

- **Personal Statement** – Write your belief statement about the aims and role of student affairs in Higher Education
- **Goals** –
  - Identify goals you developed either before or during this program in the following four areas:
    - Personal development
    - Career training
    - Intellectual accomplishment
    - Professional aspiration
  - Communicate which goals you have attained and explain how you achieved them.
  - When planning for future growth, which goals are you continually striving to attain? Explain how you plan to achieve these goals.
- **Program Evaluation**
  - How has the program acquainted you with the historical foundations of higher education and student personnel?
  - How has the program taught you to think critically about the contemporary issues facing student affairs professionals?
  - How has the program enabled you to gain skills necessary for contributing to the body of knowledge in student personnel?
  - What are the strengths of the program? Give examples.
  - What changes, contributions, deletions, etc., could improve the quality of the program?
- **Representative Student Work**
  - Provide examples of your work from three of the core courses you have taken in the program as well as from your work experience or graduate assistantship related to Higher Education, and include a reflective narrative in which you explain why you selected the particular items for inclusion in your portfolio, how the items exemplify your learning or work, and how the items show your growth during the program.
Guidelines

The rubrics faculty use to evaluate the portfolios may be found in the Appendices. In addition, portfolio exemplars are available in Guyton 120.

- **Do Not . . .**
  - Place every academic example you have in your portfolio.
- **Do . . .**
  - Provide an example of academic work from three of the following core courses:
    - EDHE 656 – Student Services in Higher Education
    - EDHE 658 – Organization and Governance in Higher Education
    - EDHE 659 – Finance of Higher Education
    - EDHE 660 – History of Higher Education
    - EDHE 664 – Law in Higher Education
    - EDHE 665 – Contemporary Issues of Higher Education
    - EDHE 671 – The College and the Student
  - Submit at least one example from your work, graduate assistantship, or practicum experience.
  - Use academic and work examples to demonstrate improvement in academic and work related goals.
  - Include a reflective narrative in which you explain why you selected the particular items for inclusion in your portfolio, how the items exemplify your learning or work, and how the items show your growth during the program.

Deadlines and Specifics

- **Due Dates** (Note that a completed Form GS7 is due to the department office for program coordinator review and signature 21 days prior to portfolio due date. The program coordinator will forward to the Graduate School.)
  - **Fall** – first Monday in November
  - **Spring** – first Monday in April
  - **Summer** – first Monday in July
- **Writing Limitations** (double-spaced)
  - **Personal Statement** – 1-2 pages
  - **Goals** – 1-2 pages
  - **Program Evaluation** – 1-2 pages
  - **Representative Work Reflective Narrative** – 1-2 pages
- **Copies**
  - Unless other instructions are provided from the program coordinator, turn in one bound copy of the portfolio to the program coordinator or designated office by the due date. In addition, one electronic copy (pdf file) of the portfolio should be emailed to the program coordinator or designated person by the due date.

Oral Examination

The graduate school only requires master’s candidates to complete a written examination. Your portfolio satisfies this requirement. However, if the faculty determine that a student’s portfolio is unacceptable, the student may be asked to complete an oral examination and/or redo the portfolio to correct deficiencies. As the portfolio is a graduation requirement, failure to complete a portfolio or correct deficiencies may result in failure to graduate from the program.
Graduation

During your last semester of coursework, you must complete an application for graduation (Form GS8) indicating the semester in which you will graduate or complete your degree. This form is available from the Graduate School website and an example is available in the Appendices. After completing the form, including listing courses applied to the degree (courses taken) and courses in which you are currently enrolled in the area marked “Department Approval” and attaching a current copy of your transcript (unofficial is fine), please submit the form to the department office for program coordinator review and signature. The program coordinator will forward the materials to the Graduate School. Students should submit the completed form to the department office at least one week prior to the deadline noted by the Graduate School to ensure that the program coordinator has sufficient time to review, sign, and forward the form prior to the Graduate School deadline. As this deadline occurs within the second month of each semester, it is imperative that students complete the form early.

If a student intends to complete the degree in the summer, but wishes to participate in the previous May ceremony, the GS8 form must be completed by the Spring Semester deadline, with August marked as the “Graduation Date.” Completing and submitting the form by the Spring Semester deadline indicates to the Graduate School that a student wants to participate in the May commencement ceremony, even though the degree will not be completed at that time. Note that a student who completes a degree in the summer or December has a right to participate in the next May’s ceremony by meeting the summer and fall deadlines for the necessary forms.

Students are encouraged to participate in the general morning commencement ceremony (held in the Grove) and the School of Education ceremony (also held in the Grove, unless rain moves it indoors). This is an important milestone in your career, and it should be celebrated. During the Spring Semester, watch for emails containing information concerning commencement, including the ordering of graduation regalia for the May ceremony. Orders for regalia rental are handled through the Bookstore.

It is important to note that regardless of which semester a student graduates, completing the GS8 form does not initiate the process for receiving a diploma and/or having one’s name listed in the commencement booklet. To initiate that process, after completing the GS8 form, a student must complete an Online Diploma Application available through the myOleMiss system.
Time Limits for Completion of Degree

The Graduate Catalog (available on the Graduate School website) contains information regarding time limits for degree completion. Currently, all work applying to a master’s degree must be completed within six years.

Transfer of Credits

Transfer of credits is limited (no more than six hours) and not automatic. Acceptance of coursework from another institution requires both program and Graduate School approval. The Form GS3, which is available from the Graduate School website and found in the Appendices, is used for this purpose.

Assistantships and other Funding Opportunities

More than 50 assistantship opportunities are available for students in this master’s program across The University of Mississippi. Many of these are available through the Division of Student Affairs, and many of those require not only admission to a master’s program, but admission to the M.A. in Higher Education/Student Personnel program. A link to information on assistantship opportunities available through the Division of Student Affairs may be found on our program website. The Higher Education program or Department of Higher Education does not control these assistantships or their requirements and deadlines. Students must initiate contact, initiate necessary paperwork, and meet indicated deadlines. Students are encouraged to seek assistantship opportunities within the Division of Student Affairs, but also to contact and consider other areas of the University as appropriate to determine available opportunities.

In addition, students are urged to check with the Graduate School, the Office of Research, and the Dean’s Office in the School of Education for information and applications for scholarships and fellowships. For example, some organizations and publishers will provide financial assistance to students conducting research in specific areas. Such funding opportunities change often; therefore, periodic checks are suggested. In general, a student willing to be “scrappy” in his or her efforts to find assistantships and funding opportunities may find more success.
The Ph.D. in Higher Education

This program prepares higher education administrators following the practitioner-scholar model. The intent of the doctoral program is to offer advanced coursework and experiences that provide the student with greater knowledge of higher education as well as the leadership aspects associated with such organizations. In addition, as scholars, students also must demonstrate the ability to conduct independent research worthy of the Doctor of Philosophy degree, which is accomplished, in part, through the dissertation phase of the program. The requirements of the 90-hour program are outlined below. Any courses a student may request to transfer into the program from another institution or program are considered on a course-by-course basis. Regardless of how many courses are deemed eligible for transfer into the program, students admitted to the program Fall 2010 or after must complete at least 45 course hours plus 18 dissertation hours at The University of Mississippi following admission to the doctoral program. If pursuing the program part-time, it generally takes 3 years to complete coursework and another 1.5-3 years for dissertation.

14 Revised 9/28/2017
Program Planning and Registration for Classes

Each student is assigned a faculty advisor at the time of admission. With the help of an advisor, an individualized program of study should be completed during the first registration period. This plan of study will take into account the student’s background, professional goals, and academic interests. Program plans are flexible and amenable to change. The typical course rotation by semester can be found in the Appendices.

Doctoral students should meet with their advisors at least once each semester. This usually takes place during the registration or pre-assignment periods as noted in the University calendar. Although a doctoral student is free to follow the plan of study created early in their academic career, meeting with your advisor to double check for unknown changes is strongly suggested. The faculty take the adult learner approach for our doctoral students and try to treat our students as such. Based on that philosophy, students are responsible for noting prerequisites for courses, and planning their programs to account for proper sequencing of all coursework.

Student Evaluation and Sequencing of Important Courses

1. Upon notification of admission to the doctoral program, a tentative plan (course of study) is developed by the student and his or her advisor.
2. Prior to EDRS 705, a student must register for EDHE 700 (Models of Inquiry and Literature Review). The course begins introducing doctoral students to research in general and the dissertation specifically. Within the course students begin thinking about a dissertation topic and then develop a topic that is based in research and on an extensive literature review.
3. One of the more critical course sequencing elements involves the research courses. EDHE 700 is addressed above. EDRS 705, Educational Research II, should be taken within a student’s final semester of coursework. The final product of this course is meant to be a solid version of a student’s dissertation prospectus. All other courses in the research component must be taken prior to enrollment in EDRS 705; thus, the prerequisites are EDRS 601, 605, 700, 701, and 704.
4. Prior to, or at the beginning of your last semester of coursework, you should complete proper paperwork to apply to the department to take the program comprehensive examination. Approval by the faculty is required before a student is allowed to sit for the comprehensive exam. More specific information follows below.
5. Following successful completion of the comprehensive examination, a student is admitted into doctoral candidacy. At this stage, a student’s focus is the dissertation, including the defense of a prospectus, completion of the dissertation research, and defense of the final dissertation. More specific information follows below.
Comprehensive Examination

General Description and Purpose
The comprehensive examination for the Ph.D. is given during the last semester of doctoral coursework. Successful completion of the examination officially admits the doctoral student to doctoral candidacy. The examination is integrative in nature, thus requiring the student to analyze and synthesize information while demonstrating knowledge of the research and subject literature. An indication of recognition of connections among courses is sought. The faculty also is looking to see the ability to operate the basics of a computer and analyze and interpret data. Successful completion of the comprehensive examination is an indicator that the student is prepared to proceed to the dissertation phase of the program.

The comprehensive examination is designed to provide a:
- Mechanism to focus student learning
- Method to test student’s acquisition of knowledge
- Demonstration of the student’s ability to recognize, identify, delineate, discuss, and recommend resolution of significant problems in the field

Timing
Comprehensive examinations are held each year on the first Friday and Saturday of the January and August intersessions, respectively. To be eligible to take the comprehensive examination, students must complete and submit a Form GS5 (Application to Sit for Comprehensive Examination). The program coordinator will review, sign, and forward the form to the Graduate School if the faculty determines that a student is authorized to sit for the comprehensive exam. Because this form is due to the Graduate School at least 10 days before the exam, a student should complete and submit the GS5 form to the department at least two weeks prior to the scheduled exam.

Structure
The comprehensive examination begins on a Friday with the completion of an article critique. Students will receive information on the article Friday morning and be asked to complete the critique "in house" between 1-5 p.m. The most current APA manual will be provided and students may bring up to two research textbooks to aid them in the writing of the critique. On Saturday from 8 a.m. - noon, students will be asked to respond to a policy/practice case study related to their core courses as well as a data interpretation question. Students may use a one-page double-spaced reference list on the second day in addition to the provided APA manual. The department will provide computer access on both days.

Evaluation
Each question is blind graded by two faculty members who score the question based on grading rubrics designed by the faculty. A copy of the grading rubrics and further directions will be provided to the student prior to the administration of the exam. If there is a disagreement in grading, a third faculty member breaks the tie. Failing one part or question results in a remedial exercise for that question. Failing two or more parts or questions requires retaking the examination the next time it is offered. A second failure of comps results in dismissal from the program.
Doctoral Dissertation and Dissertation Hours

All doctoral candidates must adhere to the program and Graduate School requirements for conducting independent research that results in the writing of the doctoral dissertation. After successful completion of the comprehensive examination, a student is advanced to candidacy and may submit a dissertation prospectus to his or her dissertation committee. This committee is composed of four members of the Graduate faculty, with a member of this program serving as chair/director, and at least one faculty member serving from outside the discipline. Composition of the committee should be discussed between the student and dissertation chair/director. Important information regarding this procedure is detailed in the Graduate Catalog.

Ten days prior to the scheduled prospectus defense, the Graduate School must receive a completed and signed Form GS6. To allow the program coordinator sufficient time to review and sign, a student should complete and submit the form to the department at least two weeks prior to the prospectus defense date.

Students conducting any type of research involving human subjects, whether through survey or some form of experimental treatment, must familiarize themselves with the rules surrounding human subjects research. The University of Mississippi complies with all federal laws and regulations associated with such research. Students must have their research approved through the Institutional Review Board (IRB). Before IRB will consider a protocol for human subject research related to a student’s dissertation, the student and dissertation chair (and possibly other dissertation committee members) must complete CITI training and be certified to conduct research through that process. In addition, the IRB will not consider a protocol for dissertation research unless and until a student has successfully defended a dissertation prospectus.

Registration for a minimum of 18 dissertation hours (EDHE 797) is required and a student must be registered for a minimum of three hours during the semester of the defense. Ideally, a student should not register for dissertation hours until after the successful completion of the comprehensive exam. The program does have a policy, which may be found in the Appendices, under which a student may be allowed to register for dissertation hours prior to the taking or successful completion of the comprehensive exam. EDHE 797 is graded pass/fail (Z = pass, F = fail). Students enrolled in EDHE 797 must demonstrate progress toward completion of the dissertation. Failure to provide such evidence to the student’s dissertation chair will result in an F grade. Two successive semesters of an F grade for dissertation will result in dismissal from the program.

Students are expected to follow the latest APA manual when writing the dissertation. Consult the Graduate School website (http://www.olemiss.edu/gradschool/Thesis_dissertation_prep.html) for important information regarding completing the dissertation process. When the dissertation is completed and the student and his or her dissertation chair/director determine that the student is ready to defend the dissertation, the student must complete and submit a signed Form GS7. Because this form must be received by the Graduate School 14 days prior to the scheduled defense date, the completed form must be submitted to the department office for program coordinator review and signature approximately three weeks prior to the defense date. The program will forward the form to the Graduate School.
Graduation

During your last semester of work on the dissertation, you must complete an application for graduation (Form GS8) indicating the semester in which you will graduate or complete your degree. This form is available from the Graduate School website and an example is available in the Appendices. After completing the form and attaching a current copy of your transcript (unofficial is fine), please submit the form to the department office for program coordinator review and signature. Although not required for those obtaining a doctoral degree, listing courses applied to the degree (courses taken) and dissertation hours in which you are enrolled in the area marked “Department Approval” can expedite the review of the form. The program coordinator will forward the materials to the Graduate School. Students should submit the completed form to the department office at least one week prior to the deadline noted by the Graduate School to ensure that the program coordinator has sufficient time to review, sign, and forward the form prior to the Graduate School deadline. As this deadline occurs within the second month of each semester, it is imperative that students complete the form early.

If a student intends to complete the degree in the summer, but wishes to participate in the previous May commencement ceremonies (including hooding), the GS8 form must be completed by the Spring Semester deadline, with August marked as the “Graduation Date.” Completing and submitting the form by the Spring Semester deadline indicates to the Graduate School that a student wants to participate in the May commencement ceremony, even though the degree will not be completed at that time. Note that a student who completes a degree in the summer or December has a right to participate in the next May’s ceremony by meeting the summer and fall deadlines for the necessary forms. The proper sequence of completing this form and the issues involved that are particular to doctoral students and the desire many doctoral students have to participate in the May hooding ceremony prior to final defense of the dissertation is addressed in the department’s early hooding policy, which may be found in the Appendices.

Students are encouraged to participate in the general morning commencement ceremony (held in the Grove) as well as the hooding ceremony (held the night before). At the hooding ceremony, doctoral students are honored individually. In terms of graduation, doctoral students are considered as part of the Graduate School rather than the School of Education. Thus, although we invite doctoral students to attend the School of Education ceremony (also held in the Grove, unless rain moves it indoors), doctoral students’ names are not read at the School of Education ceremony. During the Spring Semester, watch for emails containing information concerning commencement, including the ordering of graduation regalia for the May ceremony. Orders for regalia rental are handled through the Bookstore. Please note that the hood for Ph.D. is dark blue.

It is important to note that regardless of which semester a student graduates, completing the GS8 form does not initiate the process for receiving a diploma (which you will receive in the mail after commencement ceremonies) and/or having one’s name listed in the commencement booklet. To initiate that process, after completing the GS8 form, a student must complete an Online Diploma Application available through the myOleMiss system.
Time Limits for Completion of Degree

The Graduate Catalog (available on the Graduate School website) contains information regarding time limits for degree completion. Currently work on the doctoral degree, including dissertation, must be completed within nine years of entry into the program, with the expectation that the student has taken all necessary coursework and passed the comprehensive exam within four years of entry into the program, leaving five years to complete and successfully defend the dissertation.
Doctor of Education (Ed.D.) with an emphasis in Higher Education

The Doctor of Education (Ed.D.) with an emphasis in Higher Education is designed for current college and university administrators who desire to emphasize a practitioner focus in their doctoral studies. The purpose of the Ed.D. with an emphasis in Higher Education is to enhance higher education practitioners’ critical thinking and decision-making skills through courses focused on leadership, global awareness, current events in education, policy, and practice. The degree culminates with a capstone project based on research focused through the lens of professional practice. Reflecting the value of applied learning, the capstone project consist of the doctoral student addressing a genuine problem of practice in a college or university setting.

Designed to be completed over a three-year period, the Ed.D. requires 48 semester hours of post-master's coursework. The program requires continuous enrollment of six semester hours for eight consecutive semesters.

The School of Education at the University of Mississippi is a member of the Carnegie Project on the Education Doctorate (CPED), which is a consortium of over 80 colleges and schools of education which have committed resources to work together to advance the understanding of the contemporary doctorate in education.

PROGRAM COURSES

Core/Context Courses (3 Courses / 9 Semester Hours; Cross-Curriculum)
EDCI 703  Seminar on The Learner and Learning: Exploration of prominent learning theories and their practical applications toward the design of learning environments.
EDFD 707  The Professional Philosophy: Relation of various philosophies to modern educational practice.
EDFD 713  Education and Society: Ways in which selected cultural factors and trends affect the process and organization of education.

Higher Education Emphasis Courses (4 courses / 12 semester hours)
EDHE 711  Comparative Education: Comparisons among patterns of education currently followed in other countries.
EDHE 721  Recent Developments in Educational Practice: Investigation and evaluation of selected contemporary innovations in teaching and the conducting of educational programs.
EDHE 730  Multi-Disciplinary Perspectives on Leadership: A seminar drawing from a variety of disciplines to broaden doctoral students' behavioral and social-scientific and humanistic backgrounds as these can enrich leadership practices.
EDHE 760  Advanced Policy Analysis: Advanced study of educational policy making at the state and federal level. The class requires travel to Jackson, Mississippi, and Washington, D.C.

Inquiry & Analysis Courses (4 Courses / 12 Semester Hours; Cross-Curriculum)
EDRS 700  Models of Inquiry and Literature Review: A seminar focused on the development of an appropriate dissertation topic and corresponding extensive literature review.
EDRS 701  Statistics II: An in-depth study of the analysis of variance process using traditional and regression-based techniques. Conceptual, computational, and computer applications are emphasized.
EDRS 702  Institutional Research and Planning In Higher Education: Outlines the development of institutional research at colleges and universities; reviews common institutional research functions; provides practical exercises in the conduct of studies, data presentation and analysis; describes the development of structured planning processes at colleges and universities.

EDRS 704  Qualitative Research: An in-depth analysis of the various forms of qualitative research. It is intended that this course will provide students with a theoretical and practical starting point for utilizing this method of research.

CAPSTONE COURSES (5 capstone courses 15 semester hours)
EDFD 797 Dissertation in Practice (Project 1)
EDFD 797 Dissertation in Practice (Project 2)
EDFD 797 Dissertation in Practice (Project 2)
EDFD 797 Dissertation in Practice (Project 2 and 3)
EDFD 797 Dissertation in Practice (Project 3)

The program is designed to enable students to complete the Ed.D. in three years. The curriculum and timeframe of the Ed.D. with an emphasis in Higher Education requires continuous enrollment of six semester hours for eight consecutive semesters in the below prescribed curriculum.

### EDHE 797 Dissertation - 18 semester hours
*18 hours taken after successful completion of comprehensive exam*

**Total:** 96 semester hours
Portfolio Component Checklist

Student Name:

Semester: Spring 2018

☐ Belief statement

☐ Goals

☐ Program evaluation

☐ Academic work

Students must include one example from three of the following courses. For each selected example, indicate the title or subject area of submitted work.

☐ EDHE 656:
☐ EDHE 658:
☐ EDHE 659:
☐ EDHE 660:
☐ EDHE 664:
☐ EDHE 665:
☐ EDHE 671:
☐ Other (optional):

☐ Professional work/assistantship/practicum experience example(s)

Mark example type(s) included in the portfolio. Check all that apply. For each selected example, indicate the title or subject area of the project.

☐ Presentation:
☐ Brochure / print material:
☐ Survey / research results:
☐ Other, please specify:

☐ Representative Work Reflective Narrative

Students must include a reflective narrative to accompany the representative work examples in which they explain why they selected the particular items for inclusion in the portfolio, how the items exemplify learning or work, and how the items show growth during the program.

Policy on Taking Dissertation Hours Prior to Achieving Doctoral Candidacy
Higher Education Program

Per Graduate School policy, a student has the right to register for dissertation hours once he/she has achieved doctoral candidacy, which signifies that one has passed written doctoral comprehensive exams. The Higher Education program, as allowed by the Graduate School, may grant a student the privilege of registering for dissertation hours prior to candidacy under the following guidelines. During the semester in which a student is scheduled to sit for the written comprehensive exam, if approved by the student’s dissertation chair (or advisor if chair not identified), a student may register for dissertation hours. The number of dissertation hours for which one may register during the comps semester:

- If the student is under a graduate assistantship, fellowship, or other academic scholarship that requires registration for nine hours, is the amount that would take the student to a total of nine semester hours, including any other non-dissertation course work taken during the same semester.
- If the student does not meet the above criteria, is the amount that would take the student to a total of six semester hours, including any other non-dissertation course work taken during the same semester.

A student should work closely with his/her dissertation chair (or advisor if chair not identified) to determine the appropriate semester during which to take comprehensive exams, which are given in January and August of each year. The spirit behind the Graduate School policy, which establishes when the right to take dissertation hours attaches, shows the importance of moving from the course work to dissertation stage, of moving from doctoral student status to doctoral candidate status. Thus, if a student is granted the privilege of taking dissertation hours early, such a grant of privilege should indicate that the student is prepared to move to the dissertation or candidacy stage. Although failing comprehensive exams does not necessarily equal dismissal from the program (unless there are two failed attempts to pass), it often does signify that a student is not ready to move to the candidacy or dissertation stage.

Whether a student passes or fails the comprehensive exams during a given semester, a passing grade (or Z grade) will be assigned for the dissertation hours only if a student has made significant progress on the dissertation during that semester, which is the criterion for receiving a Z grade for any enrollment period during which dissertation hours are taken. If significant progress is not made on the dissertation during any enrollment period during which a student registers for dissertation hours, it is the discretion of the instructor of record to assign a failing or F grade.
Policy to Allow Doctoral Students Participate in May Hooding Ceremony
Department of Higher Education

The University allows students to participate in May commencement activities under the following scenarios: completion in May of that academic year, completion in the summer or fall that precedes the May ceremony, and completion in the summer that follows the May ceremony.

For doctoral students, participation in May commencement activities, including the hooding ceremony, is an important event that should signify completion of the doctoral degree. As the University holds commencement and hooding exercises only once a year, departments and programs are given the discretion to allow students to participate in May commencement and hooding activities based on completing the dissertation during the summer immediately following May commencement.

Per Graduate School policy, there must be at least four calendar months between successful defense of a prospectus and successful defense of the dissertation. For students who have not completed all requirements for the doctoral degree by, participation in May commencement activities is considered a privilege and not a right.

Following are the conditions under which a program or department may allow the privilege of participation in May commencement and hooding exercises:

- Successful defense of the prospectus occurs at least one week prior to the date established by the Graduate School, noted on the University’s Academic Calendar published by the Registrar’s Office, as the “last day to submit applications for May diplomas.”
- Following the successful defense of the prospectus, the dissertation committee chair communicates to the Graduate Program Coordinator (GPC) in writing that the student has a high probability of completing the dissertation, and successfully defending the dissertation, by August 1 of that year.

If the above conditions are met, the student may complete the GS8 form (Application for Graduate Degree) available through the Graduate School, noting an August graduation date, and provide such form with the necessary unofficial transcript to the appropriate program/department office. The GPC will review the form and, if all other degree requirements are met, will sign and forward the form to the Graduate School.

Note that a student who anticipates successful defense of the dissertation by mid-April, and thus is allowed to participate in May commencement activities by right, must complete the GS8 form by the date noted above indicating a May graduation date. The GPC will review, sign, and forward the form, if the dissertation committee chair has communicated to the GPC in writing that the student has a high probability of completing all degree requirements, including successful defense of the dissertation, by mid-April. Should the student not successfully defend the dissertation by mid-April, the student will be allowed to participate in May commencement exercises only if the dissertation committee chair communicates to the GPC in writing that there is a high probability that the student will complete by August 1, and the Graduate School will be notified of an anticipated August graduation date. In all cases, transcripts indicate the date on which a student has completed all degree requirements, and it is on that date when all rights and privileges associated with the degree are available to the student.
Graduate School Forms

Note that all of these forms are available on the Graduate School website and if accessed from that website (http://www.olemiss.edu/gradschool/forms_library.html), they are typeable/fillable and in most cases, may be both printed and saved once completed. We suggest that you pull the necessary forms directly from that site. Please consult the copies of the forms provided here, however, to ensure that you are completing forms correctly, particularly as it relates to the GS5 form for doctoral students and the GS7 form for master’s students’ portfolios.
Form GS2

Update Advisor/Advisory Committee

The purpose of this communication is to establish or update the academic/research advisor for the student named below. Also, this form can be used to establish the advisory committee for master's or doctoral students. For doctoral students*, either the advisor or one co-advisor must be a full member of the Graduate Faculty (i.e., be a Professor or Associate Professor) and the advisory committee must include three full or associate Graduate Faculty members from within the department and one from outside the discipline. For master's students, the advisory committee must include three full or associate Graduate Faculty members from within the department.

Exceptions must be approved by the Graduate Dean.

Authorization to Sit for a Comprehensive Examination

This communication is used by a Department Chair / GPC to confirm that a student is ready to sit for comprehensive examinations. The student must be full standing in a doctoral program, must have satisfied all foreign language requirements, if applicable, and must have completed all or nearly all of the program course work requirements for the degree. When a student completes the comprehensive examination, he/she is considered to be admitted to the candidacy.

Chair Name: John Holleman

Title: Program Coordinator

Name: Program Faculty

Name:

Name:

Name:

Proposed Date of Examination: ____________

I have examined the academic record of the candidate and I find that the candidate is ready to sit for comprehensive examinations.

Department Chair/GPC Signature ____________________________ Date ____________

Notes:
1. Students with outstanding 1 grades or a grade point average of less than 3.0 are not eligible to take a comprehensive examination.
2. There must be one intervening semester between the semester in which the comprehensive examination and the final dissertation examination occur.
3. The total duration of study for a doctoral degree may not exceed seven years. It is expected that students will have been admitted to candidacy within four years of entry to the doctoral program.
4. After admission to candidacy, a student must maintain continuous enrollment requirements. The Graduate Catalog defines continuous enrollment as enrollment in two of the three academic periods (Fall, Spring and Summer) during a 12-month period of time.
DISSE ETATION REVIEW PROCEDURE

**There must be at least one full semester between submission of the prospectus and the semester in which the final dissertation is scheduled.

A. A written dissertation prospectus will be required of every doctoral student.

B. An oral defense of the prospectus will be required.

C. A committee will be formed to evaluate the merit of the prospectus. This committee will also serve as the dissertation committee.

D. The committee should consist of at least four (4) members. One member, nominated by the dissertation chairperson, will be external to the discipline. All members of the committee shall have equal voting rights.

E. A single negative vote in the committee will require negotiation among the members in order to achieve reconciliation of the point(s) of objection.

F. Only if the committee cannot agree on the merits of the prospectus and, through reasoned discussion, accept the prospectus unanimously, a review process by a committee of the department/school will be invoked.

G. Although a unanimous vote of the committee is necessary in order to accept the prospectus, a majority vote only will be required on the final dissertation defense.

H. An approved copy of the prospectus will be filed with the Graduate School immediately following the defense.

I. Any research involving human subjects must be approved by the Institutional Review Board (IRB). To determine if this provision applies to you, please visit their website at [http://www.research.olemiss.edu/cms/compliance/IRB/forms](http://www.research.olemiss.edu/cms/compliance/IRB/forms) or call the IRB office at 662/915-3929.

Any research involving animal subjects must be approved by the Institutional Animal Care and Use Committee (IACUC). To determine if this provision applies to you, please visit their website at [http://www.research.olemiss.edu/cms/compliance/IACUC](http://www.research.olemiss.edu/cms/compliance/IACUC) or call the IACUC office at 662/915-3929.

J. When any member of the committee believes that a substantial change in the research plan has been made, the committee will be reconvened. Unanimous approval of any substantial revision is required. A report of substantial changes will be filed in the Graduate School.

K. Any committee member who does not sign the final dissertation must file an objection with the Graduate School.
Form GS6

Dissertation Prospectus Procedure

This communication is used by a Department Chair/GPC to confirm that a student is ready to appoint the prospectus committee and defend the prospectus. The committee is comprised of a chair, of which he/she must be a full member of the Graduate Faculty, two additional members of the department and one member, external to the discipline. This form should be submitted 10 days in advance of the scheduled prospectus date. A memo should be sent following the proposal defense informing the Graduate School of the results along with a copy of the approved prospectus.

Notes:

1. A student must be enrolled during the semester in which he/she takes the final examination. The minimum enrollment is three hours for a Fall or Spring semester and one hour for a Summer semester.

2. Requests to hold a final oral/written examination must be submitted to the Graduate School no later than fourteen (14) days prior to the date of the intended examination.

3. Examinations may not be given during regular University examination periods at the end of each semester or when the University is officially closed.

4. For doctoral students, there must be an intervening semester (or an equivalent calendar period) between the final dissertation examination and completion of both the comprehensive examination and the prospectus defense.
Form GS7
Authorization of the Final Oral/Written Examination

This communication is used by a Department Chair or GPC to confirm that a student is ready to take the final oral/written examination for the indicated degree, to update the members of the examining committee, to set the date of the examination and to request the Graduate School to inform committee members of the proposed date of the examination.
