

EDRD 355 Confirming Field Experience Hours

All EDRD 355 students will be required to log placement hours in the School of Education Assessment System. It is recommended that students add hours in the assessment system throughout the semester instead of waiting until the end to ensure an accurate record of field placement hours. Clinical Instructors will need to log in to the assessment system to confirm these hours. It is also recommended that clinical instructors confirm hours throughout the semester. Below are steps for **clinical instructors** on how to successfully confirm field experience hours in the assessment system.

School of Education Assessment System

About Academics Departments, Centers, & Outreach Faculty & Staff Students

Welcome to the SOE Assessment System

This system is implemented at three levels:

1. Individual candidate level to ensure that our candidates exit our programs with the appropriate skills, knowledge, and dispositions to be effective professionals.
2. Program level to determine the effectiveness and cohesiveness of candidates' courses of study.
3. Unit level to monitor the connectivity of programs and their alignments with professional standards, unit's mission, vision, and goals, the conceptual framework and articulated needs from the field, and dispositions to be effective professionals.

Assessment data are collected from multiple sources including candidates, recent graduates, faculty, clinical instructors, principals, and external reviewers. These data are systematically compiled, summarized, and analyzed annually to assist in making improvements that have a positive impact on candidate performance, program quality, and unit operations. The process provides an empirical basis for informing, evaluating, and continuing to improve our assessment and to educator preparation programs.
