Next SOE Faculty meeting – April 30, 2010 @ 2:00
Welcome by Dean Chitwood

Dr. Morris Stocks – Provost and Vice Chancellor for Academic Affairs
At a recent IHL board meeting Commissioner Bounds made a presentation of the factors that were critical to the success of the state of Mississippi as it relates to higher education. Dr. Bounds laid out strategic goals for each University about the number of baccalaureate degrees each University needed to grant by 2025. They are very aggressive goals. Last year we granted about 2500 baccalaureate degrees and our goal for 2025 is 4400 baccalaureate degrees.

The second point of Dr. Bounds’ presentation concerned teacher preparation. He has a goal that we will get to the national average in the production of teachers as it relates to our population and he’s laid out some goals for each school of education in the state. The goals are also very aggressive. They are even more aggressive when we realize the budget constraints that we’re facing right now. So, Dr. Stocks’ point to the committee is everyone has a huge job to try to identify a dean who can lead us through that process in a very tight fiscal situation. Dr. Stocks believes, based on Dr. Bounds background, that the productivity of all universities will be closely scrutinized in the future. He also believes the productivity of schools of education will be more closely scrutinized than other aspects of the university.
